WORK SAFELY IN THE CONSTRUCTION INDUSTRY CPCCOHS1001A

COURSE OBJECTIVE

This unit of competency specifies the outcomes required to undertake Occupational Health and Safety (OHS) induction training within the construction industry. It requires the ability to demonstrate personal awareness of OHS legislative requirements, and the basic principles of risk management and prevention of injury and illness in the construction industry. Licensing requirements will apply to this unit of competency depending on the regulatory requirements of each jurisdiction.

APPLICATION OF THE UNIT

This unit of competency supports the attainment of the basic OHS knowledge required prior to undertaking designated work tasks within any of the sectors within the construction industry. The unit relates directly to the general induction training program specified by the *National Code of Practice for Induction for Construction Work* (ASCC 2007).

ELEMENTS ADDRESSED IN TRAINING

- Identify OHS Legislative Requirements
- Identify OHS Communication and Reporting Processes
- Identify Construction Hazards and Control Measures
- Identify OHS Incident Response Procedures

DELIVERY OF TRAINING

Training is delivered over a one day period in a face to face classroom environment and practical experience in a supervised outdoor environment. Upon successful completion of this unit, participants will be issued with a Statement of Attainment and a WorkCover NSW Construction Induction (White Card).

Course Pre-Enrolment Information is available on our website or can be obtained from our office, and/or emailed or posted to you.

A Statement of Attainment is issued when an individual has completed one or more accredited units
