Truck and Plant Licence Specialists

Nationally recognised competency based training and assessment.

LICENCE TO DRIVE HEAVY RIGID VEHICLE TLILIC2016B

COURSE OBJECTIVE

This unit involves the skills and knowledge required to obtain a licence to drive a heavy rigid vehicle. It includes systematically and efficiently controlling all vehicle functions, monitoring traffic and road conditions, managing vehicle condition and performance, and effectively managing hazardous situations.

Assessment of this unit will be undertaken within a licensing examination conducted by, or under the authority of, the relevant state/territory driver licensing authority.

APPLICATION OF THE UNIT

Driving must be carried out in compliance with the licence requirements and regulations of the relevant state/territory roads and traffic authority pertaining to heavy rigid vehicles.

Driving is performed with limited or minimum supervision, with limited accountability and responsibility for self and others in achieving the prescribed outcomes.

Driving involves the application of routine vehicle driving principles and procedures to maintain the safety and operation of a heavy rigid vehicle across a variety of driving contexts.

Licensing/Legislative Requirements

The primary legislative requirements applicable to this unit of competency are State/Territory legislation in relation to road use and driver licensing. This unit addresses the underlying knowledge and skills necessary for the granting of a Heavy Rigid Driver Licence. Drivers may require additional training to drive particular vehicles of the class or in particular contexts. Obtaining this competency is a necessary pre-requisite for obtaining a Heavy Rigid Driver Licence. However, it is only one of several criteria for obtaining the licence. Prospective licence applicants should check with the State/Territory driver licensing authority for other criteria (for example: licence tenure and medical fitness) to confirm compliance with other eligibility requirements before undertaking training and/or assessment.

ELEMENTS ADDRESSED IN TRAINING

- **Drive a Heavy Rigid Vehicle**
- **Monitor and Maintain Vehicle Performance**
- **Monitor Traffic and Road Conditions**

Course Pre-Enrolment Information is available on our website or can be obtained from our office, and/or emailed or posted to you.

NATIONALLY RECOGNISED
TRAINING

A Statement of Attainment is issued when an individual has completed one or more accredited units
